FBE SUPPORT

Dear Friend of the FBE,

This is an exciting year for the Belmont Public Schools. Our Middle & High School is complete and opened this September to house grades 7-12. We have new district leadership in place with Superintendent Jill Geiser and Assistant Superintendent Lucia Sullivan. And we have begun our grade reconfiguration that will be completed next year when grade four students move to Chenery Upper Elementary School. The work of many years is coming to fruition!

As you know, the FBE awards grants to educators in the Belmont Public Schools to implement innovative programs and advanced technology that result in richer and deeper learning experiences for students. In the past several years we have funded numerous grants, including those on the front of this card.

We can't do any of this without your support. Would you please consider a gift this year to help fund teacher-led initiatives and innovation in our schools? Belmont's students and teachers thank you!

Sincerely,

Melissa McKenna
 FBE President
